exported under each Bond, and also Applications for Re-
newed Bond, when the quantity remaining unexported
amounts to 100 Maunds, or more, must be made at least
15 days prior to the expiration of the currency of the
Bonds in question. In failure, all such Applications will
be peremptorily rejected, and Indigo Bonds will be adjusted
in pursuance of the Conditions specified in them, and of
Orders from the Board of Customs, dated 14th November,
1833, and 24 January, 1835.

CLEARANCES, whether Inward or Outward, can be
given only in *Hourly Ticket*, and it is for Commanders, or
others, of their part, to see that their Applications be duly
noted with the date and hour of receipt by the Superiors
responsible. Applications for Outward Clearance (or Ex-

port Manifests) cannot be received, unless accompanied by
Certificate of Inward Clearance, and it is required that
such Applications be presented at least Five complete days
previously to the date on which PORT CLEARANCE is
desired, in order that time may be allowed for the adjust-
ment of Export Cargoes; though it will be issued earlier if
practicable. [N. B. By Order of Government, dated 18th
January 1829, these Rules are equally applicable to the H.
C.'s Regular and Chartered Ships.]

No FEES are taken for any AFFIDAVITS sworn in
this Office on the subject of Custom House Business; nor
are any FEES whatever allowed to be taken by any Per-
sons belonging to this Establishment, whether sitting within
the Office, or stationed out of doors.

to the Notification, by order of the Board of Customs,
dated the 18th, and published in the Government Gazette
of 23d January, 1823.

Packages, are allowed to be IMPORTED, EXPORTED,
RE-LANDED, RE-SHIPED, TRANSHIPPED, or
removed from VESSELS to SLOOPS or BOATS after
Shipment, without due sanction from this Office;—whether
the same be liable to, or exempt from DUTY Attention
is directed to Clause Seventh, Section XLV. to Sections
LXI LXIV LXXIV. LXXXII. LXXXIII & LXXXIV.
of Regulation IX. 1810; and to Section III. of Regulation
III. of 1830:—also to Clauses IV. and V. of the Govern-
ment Notification of 28th June 1822, for Conditions of
certain exemptions.

G. J. SIDDONS, Collector Govt. Customs.

Calcutta, 20th March, 1830.

SEA CUSTOMS.

NOTICE is hereby given, that if Goods passed through
this Office for a specified Vessel, be taken, directly
or indirectly, and put on board of any Vessel other than
that for which the said Goods have been passed through the
forms of this Office, no Drawbacks, nor Certificates for
other Presidencies, will be granted. And if such Goods be
seized in illegal transit to, or when alongside of, a Vessel
other than that for which they have been passed through
this Office, they will be liable to eventual confiscation under
Section III. Regulation III. of 1830.

If Goods which have been passed for a specified Vessel,
cannot, for whatever reason, be taken on board that Vessel,
and are fairly brought back to the Custom House for Re-
land and subsequent Re-Export to the same Vessel, or to
any other, or for regular Transshipment, every facility will, as
usual, be afforded for such transactions.

By Order of the Board of Customs,

G. J. SIDDONS,

Collector of Customs.

Calcutta Custom-House, the 28th September, 1832.

CALCUTTA CUSTOMS.

SEA DEPARTMENT.—If Goods are Exported in full of
Rowanahs then current; but are Re-landed, and not,
subsequently Re-exported until after the Rowanahs are
time-expired, then such Goods are considered as fresh
Exports, are treated as if they had never been protected by
Rowanahs, and Duty is taken, if any be leviable on such
Goods under the Regulations. But upon request made on
the face of Re-land Applications (not otherwise) parties will
be furnished with Certificates giving particulars of Rowanahs,
in order that they may be fully aware of the dates on which
those Rowanahs will become time-expired; and such Certi-
ficates will have the force and validity of Rowanahs for any
remaining period of the currency of the latter. If Exchange
Rowanahs be required, they will be granted on application,
with reference to the Provisions of Sections XXVI. and
XXVII. of Regulation IX. of 1810. If Rowanahs shall have
become time-expired between the date of Original Export,
and that of Re-land, then no such Certificates can be grant-
ed; and the Goods in question will, if brought for Re-export-
ation, be treated as fresh Exports.

If Goods are Exported only in part, and not in full, of
the quantities specified in Rowanahs, then those Rowanahs
remain in the hands of the Parties concerned; and in the
event, consequently, of such portions of Goods being Re-
landed, no such Certificates as those above described will
be issued.

By Order of the Board of Customs, dated 25th Febru-
ary, 1833.

G. J. SIDDONS, Collector.

29th February, 1833.

CALCUTTA CUSTOMS.

ALL Persons concerned are requested to take notice of the subjoined Orders, as published in the Government Gazette of April 1831, otherwise the delay and inconvenience which may be experienced will rest upon themselves.

Samples of the Goods must be produced at this Office, and the No and Date of Sea Import Register must be stated if possible. But by order of the Board of Customs dated 2d April 1833, to obtain Maffee Rowanahs for Goods of such sorts as are produced in this country, (and then are liable to Transit Duty) as well as Imported by Sea, either Sea Import No and Date must be given, or whole despatches must be produced for inspection at the Custom House;—otherwise Transit Duty will be charged.

All Applications for MAFFEE ROWANAHS, must communicate the following particulars—1st. The general or common name of each variety, or quality of Goods—2d The quantity and value of each description—3d. The sort of packages in which the Goods are contained, with the marks or directions upon them—4th. The number of each sort of package.

But Duplicate or Additional Copies of Documents of which the originals (stated to have been lost or mislaid) might eventually be used to the prejudice of Revenue, here or elsewhere, will on no account be granted.

For the future, this previous order will not be necessary, and you will, without it, be pleased to make the requisite report upon all such Applications for the Sea Export of COTTON as may be presented to you. GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sica Weight as one, i.e. any weight not exceeding Three Sica Weight, at Single Letter Postage. For any weight above Three Sica Weight, One third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sica Weight."

"Should covers send to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, subscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sicca Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject

"the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers"
"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dāk, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dāk when not exceeding Twenty-one Sicca Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject

"the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."
"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

(Signed) MATHEW CURLING FRIEND.
To JOHN BENNETT, Esq. Secretary, Lloyds.

AUSTRALIAN NAVIGATION. *Journal of His Majesty's Ship Crocodile, Captain J. W. Montagu, with a Convoy from Sydney, through Torres Strait, by the Inner Passage.*

(From the Nautical Magazine, No. XXII.)

COMPASS BEARINGS.

On the 31 of July, 1830, the Crocodile sailed from Port Jackson in company with eight Merchant ships, which took this opportunity of sailing through the Strait. On the noon of the 9th the fleet had reached up to Sandy Cape, and, passing a quarter of a mile along the east side of Break-sea-spit, rounded its north end within one cable's length, hauling into the northward for Round Hill, Lady Elliot Island, discovered by the ship Lady Elliot in 1816, was distinctly seen. Having had a fresh wind from the eastward through the day, the fleet was close under Round Hill at midnight, having made the coast hereabouts with ease; and our position being well determined, we hauled off for two miles and a half, and then shaped a direct course for Cape Capricorn. We arrived abreast of it by 9 A. M. on the 10th, from whence the Investigator's track was followed up to the Keppel Islands, and to Cape Manifold, and under which we anchored for the evening. The outer extreme of the Cape bore E. 22° S. (mag.) 14 mile, in eleven fathoms. The fleet experienced much swell during the night.

At day break, on July 11th under way from Cape Manifold, and, following the track of yesterday, arrived at noon abreast of Cape Townshead; from which, forming a direct course for the Percy Islands, anchored in the evening under the west side of the southernmost of that group, in eleven fathoms, half a mile off shore. The Percy Islands have a very verdant and fertile appearance, and abound in wood.

At day break on the 12th under way from the Percies, but the wind turning out light and variable, we made but little way. In the evening we anchored under the northern island of the cluster immediately south of Beverley Group, and which cluster is but imperfectly delineated in Captain King's Chart, sheet No. 1, published in 1824. The island we landed upon is peaked, and in some parts moderately wooded, and produces a profusion of very low Kangaroo grass, much

esteemed in the colony. It is frequented by the natives of the main land, and from its soil and luxuriance of vegetation, seems to possess great capabilities.

A fresh wind sprung up early on the 13th, and carried the fleet rapidly past the Prudhoe Islands, which we passed to the eastward. In this route we frequently discovered the water to be very much discoloured, and repeatedly sheered out or in to the land. It appeared to arise, however, from the agitation of the water on the peculiar nature of the bottom, as the soundings were regular. At noon we observed, in latitude $20^{\circ} 58'$ south, and $149^{\circ} 30'$ east, in which position several islets were seen south of the Island Ir of the Chart, not inserted therein; * also an islet and rock bore S. by W. $2\frac{1}{2}$ miles distant. There are also some other irregularities in this vicinity, which, the rapidity of our passing, and the nature of this navigation, did not permit us to correct. Having rounded the high-peaked Island Ir, we hauled in to the westward, and at sunset anchored in twelve fathoms off the Island of the chart, with an elevated peak of 874 feet, altogether one of the most beautiful islands we had hitherto met with. The peak bore E. N. E. six miles and a half distant. During the night there was some swell, and a rapid tide.

July 14th. Some delay occurred this morning by the ship *George Canning* being unable to purchase her anchor, having hooked a coral patch, and capsized her windlass. This occurrence caused us to lose a whole tide and shortened the day's run so much, that we could only fetch to an anchorage in the evening under Cape Conway, in eleven fathoms. The Cape bore east 67° N., and the north Repulse Island west 10° south (magnetic). The tide ran one knot and a half per hour.

At day break on the 15th under way from Cape Conway, and entered Whitsunday Passage with a fresh southerly breeze—Fires and other indications seemed to prove this part of the country well peopled. On either side the Strait the scenery is luxurious and picturesque. On the main the land rises into mountains of gentle acclivity, but covered with dense forests. The islands are of moderate height, and covered with rich foliage. The windings of the coast, and the straits between the islands, seem to offer security against any winds. And, altogether, it appeared the most eligible position that is to be met with beyond the present bounds of the Colony, up to this latitude, for a settlement.

We cleared the passage without difficulty, and at noon Cape Gloucester bore west, nine miles distant. In the afternoon we saw Holbourne Island. Passing six miles and a half inside of it, and having a clear run for the night, shaped a course for Cape Bowling-Green, but made little way on account of the wind falling light.

At noon, on the 16th of July, Cape Bowling-Green bore south $2\frac{1}{2}$ miles, from hence we continued our route to Cape Cleveland and the Family Islands, without anchoring until the evening of the 17th, when we came to for the night, in 7 fathoms, off Barnard Group; having followed in general, Captain King's outside track. A solitary native came off from Double Point, in a small basket canoe, which he paddled by hand; his real object was not ascertained, but having obtained some old rags and a few biscuits, he paddled back to his companions on the beach, who appeared to watch his return with anxiety.

On the morning of the 18th July, under way from Barnard Group, and followed the inshore track up to Frankland Reefs, and arrived abreast of them at 2 p.m. About this time we observed the wreck of the Colonial schooner *Mermaid*, on a reef nearly dry, six and a half or seven miles to the eastward of Frankland Reef.

The weather was hazy, and the land obscured, so that it was impossible to give this Reef any satisfactory position, other than by the log account, from which the above is determined. Having closed the wreck sufficiently to observe she was deserted, we resumed our course to the northward, and in the evening came to in 10 fathoms within Fitzroy Island, three quarters of a mile off its west end. This island is bold and elevated, and covered with wood.

July 18th. At day break under way from Fitzroy Island, and followed Captain King's route up to

Snapper Island, Cape Tribulation, and two more Islands, off which we came to in the evening in 10 fathoms. The S. E. Island S. E. by S. and N. E. ditto E $\frac{1}{2}$ N. we had a troublesome swell during the night.

July 20th. Under way early with the fleet and took the inside route up to Endeavour River, passing within the shoal of the Chart, and then edging away for Cape Bedford. From this Cape, we followed the centre track up to Lizard Island, and came to in 11 fathoms, off its west side. The north point of the island E. 55° N.; south point of it, S. E. by S. $\frac{1}{2}$ S.; and Eagle Island S. W. by W.

July 21st. On leaving Lizard Island and steering over towards Howick Group, we passed to the north of Eagle Island, and the other dangers thereabout; keeping in Captain King's track up to Cape Melville, and passing close round the Spit extending from that Cape, on which Spit there are several very remarkable rocks above water, and from thence steering over to Cape Flinders, anchored under its west side for the night with the Cape bearing N. N. E. $\frac{1}{2}$ mile.

July 22d. During great part of this day the wind was light and baffling; but by 5 p.m. we had reached over to the Island No. 3 of the Chart, in lat. $13^{\circ} 47'$ South, under which we had tolerable anchorage for the night in 11 fathoms. Its centre E. by N. $\frac{1}{2}$ N. per compass, three quarters of a mile distant, Jane's Hill, an elevated table land distinctly marked in the Chart of Captain King, was found this day to be a very valuable sea-mark.

July 23d. Under way at daylight, and proceeded by the middle route of the Chart up to the Claremount Islands. On nearing Cape Sidmouth, we observed the wreck of a large ship on its South side; and about the same time saw a small vessel under sail, making from her. With the idea that some assistance might be required, we anchored under the small Sandy islet in lat. $13^{\circ} 21'$ South and long. $143^{\circ} 37'$ East; on which a tent was observed to be pitched, and a flagstaff erected, and thither the above vessel was directing her course. She was found to be a wrecker from Sydney and the wreck was that of the Ship *Swiftsure*, cast away in July last year on a bank off this Cape that does not appear in the Chart. Finding no cause for delay, the fleet was under way before noon, with a moderate S. E. wind, and still following Captain King's route reached Cape Weymouth in the evening and anchored under it for the night, in 7 fathoms. The Cape on with the inner extreme of Restoration Island E. by S. $\frac{1}{2}$ S. two-thirds of a mile.

July 24th. At 9 the fleet was under sail, and by noon reached up to Fair Cape, in latitude $12^{\circ} 25'$ South. At 1 h. 45 m. we approached Paper Island, the reefs about which were remarked to be more extensive than represented in the Chart, and caused some hesitation with respect to passing them, before we attempted it; and, for the purpose of inspecting them more particularly we brought the fleet to the wind, and standing along their weather edge, discovered the most eligible passage to be to the Eastward of them, and to the Westward of A, i, and A, islets or banks, in a good and clear passage, bounded by reefs on either side, which, though under water are shown with great distinctness by the discoloration. We passed close under the East side of Yong Island. The bush mentioned by Captain King was seen, as well as the other circumstances alluded to in his narrative. Having passed Haggerstone Island, and Sir Edward Horne Islands, the fleet stood in for, and anchored under the West side of Sunday Island, its centre E. by S. $\frac{1}{2}$ S. one mile and four-fifths; Margaret Bay affords good shelter, but the country hereabout is of a very forbidding appearance; sandy, stony, and arid. Several Natives' fires were observed some short distance in land.

July 25th. Under way at day light, and took the inshore track of Captain Cook up to Cairn Cross Island, passing close along the edge of the Signal and Inlet s, in order to avoid the reefs of the Hannibal Islands—Pudding—Pan Hill (of Captain Bligh) is an elevated table-land, very remarkable and easily distinguished; but we could observe nothing about it to warrant its fanciful appellation. By 1 p.m. we came abreast of Cairn Cross Island, passing between it and 7, and then edging away to the N. N. W. for the Turtle Islands, passing within the reef s. In approaching the Albany Islands we fell in with the Barque *Washington*, on her passage from Van Diemen's Land to England.

* Captain King is aware of this, and expresses his regret in his work that he could not examine them.

She had entered the Straits by the way of Murray's Island, and had experienced some bad weather after her entry, by which she lost an anchor and chain cable.

Having rounded the Albany Islets, and kept well to the Northward, to avoid the small shoal laid down in the Chart, between Cape York and the York Islands, and hauling in under the Cape, anchored for the night in 5½ fathoms, the Cape bearing E. ½ S. the peaked hill at entrance of Endeavour Strait, S. E. ½ S. Here the water was perfectly smooth, and the anchorage good and secure. The country hereabout is verdant and well-wooded, and appears to be populous, as fires were observed in every direction.

July 26th. Under way about 6 A. M. from Cape York, with the fleet, joined by the Wanstead, and shaped a course for Wednesday Island; but, soon after the Ships were under sail, light and variable winds ensued, which obliged us to traverse on either side of Captain King's track, and several times we tacked short of, or bore away from discoloured patches, which probably were caused only by the bottom being disturbed by the current. For so far as our observations went, this part of the Straits has been very carefully sounded. About 10 the breeze freshened up from the Eastward and the fleet passed with celerity round Wednesday, Hammond, and Good Islands, on which large parties of Natives were assembled, who by hailing, by signs and gestures appeared very anxious that we should communicate with them.

The Shoal *d.* north of Hammond and Good Islands, must be carefully regarded in passing this contracted part of the Straits. It shewed itself distinctly by the discoloration, yet was not perceived until we had approached it very closely, notwithstanding a special look-out was kept for it. This, however, is the last danger properly belonging to the Straits, and on clearing it the passage may be regarded as over.

By noon we were abreast of Booby Island, and passing along its north side observed two small flags flying upon it, and a Bottle deposited at the base of one of the Staves, the Memorial as we supposed of vessels that had lately passed through the Straits. We made no stop, but immediately after clearing Booby Island, the Ships respectively made all possible sail and dispersed on their separate destinations.

Too much praise cannot be given to Captains King and Flinders for their Surveys of this most intricate Coast; and from the experience we had of the inshore passage, we do not hesitate to recommend it; but all Ships should have Captain King's book of Sailing Directions to accompany the Charts. We anchored sixteen times after entering at Break-sea-spit, on the 9th, and were clear of all dangers by noon of the 26th July, when the convoy parted company.

NIELSON Reef,* PACIFIC OCEAN, LAT. 27° S.
LONG. 146° 17' W.

*Extract from Journal of the Ship Sir George
Osborne—Compass Bearings.*

"January 10th, 1827. On our passage from Tahiti to England round Cape Horn—Light breezes, and fine clear weather:—Latitude observed, 26° 33' S. Longitude 140° 25' 45" W. At 6 P. M. observed a heavy swell which proved to be caused by the sea breaking on a Coral Reef; hauled off on the larboard-tack, and passed between two portions of the reef nearly level with the water. White Coral observed under the ship, from four to six fathoms; the reef extending a considerable distance, curving S. E. in form of a crescent as far as the eye could reach from the mast-head. The sea being perfectly smooth shewed itself by rollers, only occasionally breaking. Its situation 27° 0' South Latitude, 146° 16' 45" West Longitude by Chronometer."

We named it Nielson's Reef, the name of the master.

As a proof of the correctness of our Time-keepers, we had only left Tahiti five days, and made our passage in 118 days without sighting land until we made the Horn Point.

The first landing was on this reef in 1831. The vessel was wrecked on the reef and broke up. The last landing was in 1831.

The time which has been allowed to elapse is in consequence of expecting to see it placed in modern Charts from information given by the Captain, and from the intervention of other avocations.

I remain, your's,

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sica Weight as one, i. e. any weight not exceeding Three Sica Weight, at Single Letter Postage. For any weight above Three Sica Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sica Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Paper," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers" &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received for transmission by Dak, at the rate of Three Sica Weight as one, i.e. any weight not exceeding Three Sica Weight, at Single Letter Postage. For any weight above Three Sica Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sica Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage according to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a New Paper, or other Printed Paper, will subject

"the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

The Governments in India may establish Public Banks there. VIII. And whereas it may be expedient that Public Banks for the Deposit and Loan of Money and the negotiation of Securities, and other purposes, should be established in the East Indies, and that the individuals who may become Members thereof, should be incorporated under and by the authority of the respective

Governments in the East Indies; but doubts have been entertained, whether the Powers of those Governments are competent to the Establishment of such Banks, within the local limits of the Jurisdictions of the several Courts of Justice in India, which have been established by His Majesty's Charters; and it is expedient that such doubts should be removed; be it therefore enacted, and it is hereby enacted and declared, That it shall and may be lawful to and for the several Governments in the East Indies to establish such Public Banks, with perpetual succession, and such Rights, Privileges, Franchises, and Immunities, as are incidental or are usually granted to Corporations legally erected in that part of the United Kingdom of Great Britain and Ireland called England, and under and subject to such Terms and Conditions as they shall see fit; and that the several persons who shall be so incorporated, and their Heirs, Executors, Administrators, and Assigns, shall have, hold, enjoy, and be entitled to all such Rights, Privileges, Franchises, and Immunities, as well within as beyond the local Limits of the Jurisdiction of the several Courts of Justice so established as aforesaid, according to the true intent and meaning of the several Orders or Acts, by virtue of which any such Banks or Corporations shall be so established: Provided always, that the Establishment of any such Banks or Corporations shall not be valid or effectual, until they shall have received the approbation of the Court of Directors of the said Company, subject to the controul of the Board of Commissioners for the Affairs of India for the time being.

All persons in the Service of the Company may subscribe to them.

IX. And be it enacted, That it shall and may be lawful to and for all persons whomsoever, in the Service of the said Company, and for all the Judges of the several Courts of Justice in India, to subscribe to and become Members of any such Bank or Corporation as aforesaid, and that it shall be lawful to and for any person or persons in the service of the said Company, to be elected or appointed, or to become Directors or Managers thereof; any thing contained in the said Act of the Thirty-third year of His present Majesty's Reign, or any other Act of Parliament, to the contrary thereof in any wise notwithstanding.

Provision of the Act 33d Geo. III. Cap. 52, Section 137, referred to in the above Clause.

No Governor General, &c. to trade, except on account of the Company.

CXXVII. And be it further enacted, That it shall not be lawful for any Governor General, or Governor, or any Member of Council of the said Presidencies in India, to be concerned in any Trade or Traffic whatever, except on account of the said Company, nor for any Collector, Supervisor, or other person employed or concerned in the collection of the Revenues, or the Administration of Justice, in the Provinces of Bengal, Behar, and Orissa, or either of them, or their

Agents or Servants, or any person or persons in trust for them, or any of them, to carry on or be concerned in, or to have any Dealings or Transactions, by way of Traffic or Trade, at any place within any of the Provinces in India, or other parts, or to buy any goods, and sell the same again, or any part thereof, at the place where he or they bought the same, or at any other place within the same Provinces, or any other such Province or Country respectively, except on account of the said Company; nor shall it be lawful for any of the Judges of the Supreme Court of Judicature to be concerned in any Trade or Traffic whatever; nor shall it be lawful for any of his Majesty's subjects in the said Provinces to engage, intermeddle, or be in any wise concerned, directly or indirectly, in the Inland Trade in Salt, Beetle-nut, Tobacco, or Rice, except on the account of the said Company, or with their permission, on pain of forfeiting all such Goods or Commodities which they, or any of them, shall so buy and sell again, by way of Traffic, or in which any of them shall so Trade, and also treble the value thereof, one moiety to the said United Company, and the other moiety to him or them who will sue for the same.

No Judge to be concerned in any trade.

No person whatever to be concerned in the inland trade in Salt, &c. except with the Company's permission.

CLAYTON SHOAL—A newly discovered Danger, near the S. W. Coast of Billiton, Lat. 3° 26' S. Long. 107° 36' E.

(From the Nautical Magazine, No. XXIV.)

COMPASS BEARINGS.

The following Extract from the Log-Book of the ship Camden, gives the position of a dangerous Shoal to Vessels using Clement Strait. It lies in a part which appears to have been but little examined.

"July 24th, 1833.—In a passage, Sourabaya to Singapore, intending to pass through Clement Straits, made Shoe Island and steered N. W. to go between Shoal Water Island and the long low island off the S. W. end of Billiton. At 6.30 P. M., when Shoe Island bore S. E. by E., saw the Lestock Islands to the N. N. W., shortened sail at 8 P. M. and hove to, heading first four hours to the southward, the remaining part of the night, or until 6 A. M. on the 25th, head to the northward by the lead, through the night, the ship being nearly stationary. After making sail, and when Lestock Islands bore N. E. by E. about 5 miles, or thereabouts, a Shoal was observed from the quarter-deck close to, about one-third of a mile in extent, with several small black rocks in the centre of it. By bearings from the islands I make the Lat. to be 3° 26' S., and Long. 107° 36' E. This also corresponds with the run up to Shoal Water Island, this Shoal lying in the track recommended by Horsburgh. In proceeding from the eastward towards the Straits of Gaspar, it may prove dangerous to ships in running, and I have reason to believe it is not generally known.

Commander Ship Camden.

Directions for the Passage within the Reefs, or Inner Route through Torres Strait.

COMPASS BEARINGS.

In a preceding number of our work, we laid before our Nautical readers a letter from Captain P. P. King, R. N., pointing out the great advantages of adopting the passage from Sydney within the Barrier Reefs, and, with the view of doing all we could to assist ships in that intricate navigation, the journal of his Majesty's ship Crocodile, which ship passed through it with a convoy, was inserted in a succeeding number. Still, however, concise directions are wanting, and we consider ourselves following up the good intentions of that able and enlightened officer and navigator, by introducing his into the pages of our work. It has frequently been our lot to deplore the narrow limits of this Magazine, and still more must we do so, now we are obliged, in consequence to reserve for future numbers the descriptions of the places mentioned in Captain King's directions. As they are not actually essential to making a safe passage, we are content to insert these, and have placed numbers against the names mentioned, so that hereafter an easy reference may be made to the paragraphs in which they are mentioned.

Having hauled round Break Sea Spit (see Flinder's Chart, sheet 111) in the evening, it would perhaps be dangerous to steer on through the night; after running therefore, to the W. N. W. for five or six leagues, bring to until day-light: but, if the day be before you, the course from the extremity of the Spit is W. N. W. ¼ W. for about a hundred miles. You will then be about twenty miles from Cape Capricorn; on your way to which you should pass about three miles within Lady Elliot Island (1) and also within the southernmost islet of Bunker Group (2) by which you will see how the current has effected your course, and you can act accordingly: if it has set you to the northward, you may pass on either side of, or through the islands, without danger. After making Cape Capricorn, you may leave it at a convenient distance, and directing your course about N. W. by N. pass either within or without the Peaked and Flat Islands off Port Bowen (4) then steering for the Percy Group (6) pass between the 2d and 3d Northumberland Islands (5).

After passing the latter, avoid a low dangerous rock that bears from it N. 8° E. five miles and three quarters, and from 1st Peak S. 85° W. To avoid this in the night, pass close round No. 3 which is high, and of bold approach.

The Channel is safe on either side of the Percy Isles, but that to the westward of them, being better known, is recommended as the safest. Following either the Mermaid's or Bathurst's track, will carry a ship round the projections of the coast as far as Cape Grafton (35); as far as which, if the weather be fine, there can be no danger of proceeding through the night; but it must be reflected, that at Cape Grafton the coral keys of the Great Barrier Reef approach the coast, and consequently the channel becomes contracted.

On reaching Fitzroy Island (36), round it at a mile off shore, and, when its North end bears W. steer N. W. ¼ N. for thirty-five miles; you will then be a league to the S. E. of a group of low isles; should it be night when you pass them, come no nearer to them than fourteen fathoms. In steering this course, great care should be taken not to go too much to the eastward, to avoid the reef which the Tamar saw.

If the moon be up, and the weather fine, the islets will be readily distinguished, but it would be more prudent to wait for day light. This course will carry a ship over two of my tracks, and the soundings will be in 17, 18 and 19 fathoms. From the low isles, direct your course for the Hope Islands, (37) which bear from the former N. 18° W. thirty-eight miles; but the course had better be within that line, to avoid some reefs in latitude 16° 51'; pass, therefore, within five miles of Cape Tribulation, whence a direct course may be steered on either side of the Hope Isles. The better route will be within the Western Hope, and along its reef, at the distance of three-quarters of a mile by which you will avoid reef a. When you are abreast of its north end, a N. by W. westerly course, for twenty-eight miles, will carry you to Cape Bedford (40) which may be rounded at from one to three or four miles. You will see in your way, at 3½ miles from the north end of the Hope Reef, reef b; and at 15 miles from it you will be abreast of c; and five miles further on you will pass Captain Cook's Turtle Reef (43) which has a dry sand at its north end. These three reefs will be to the eastward of your course.

The current sets to the north-west, so that your course must be directed accordingly. In coasting along the shore, you will discern the summits which are marked on the Chart. The high conical hill on the south side of the entrance of Endeavour River (38) is Mount Cook, bearings of which, crossed with the summit of Cape Bedford, or any of the particularized summits or points, will give the vessel's place; by which the effects of the current, which is generally very slight, will be ascertained. On one occasion we found a current in the space between the Endeavour Reef and Turtle Reef, off Cape Bedford, to the N. W.

Being off Cape Bedford, and steering to the N. $\frac{1}{2}$ W. you will see the three Isles (44) ahead, steer between them and the low wooded island, and direct your course round Cape Flattery (41) and Look-out Point (42), in order to anchor under the Turtle Group (49) unless you have time before dark to reach the islands 4, 5, or 6 of Howick's Group (52), under which anchorage may be found. In rounding Look-out Point, do not come within two miles and a half of it, to avoid a reef that is on Captain Cook's Chart, which, however, we did not see; it lies a mile and a half north from the peaked hill at the extremity of the point. You may pass on either side of the Turtle Group, or between Lizard Island (16) and Eagle Island (48), but the latter course is not to be recommended, because the wind is generally fresher as you increase your distance from the shore, and, secondly, because the run is ten or twelve miles longer. There is good anchorage under the N. W. side of the Peak on Lizard Island.

From the Turtle Group, steer N. W. by W. $\frac{1}{2}$ W. until you see the hillock at the south-east end of No 1 of Howick Group, pass inside it and within a mile of 2 and 3, and between islet 4 and Cole's Islands (50), also in shore of 6, and of the dry sands 4, 5, and 6. The Mermaid's track will direct the course to Cape Melville (56). If the day be advanced when abreast of 6, of Howick Group anchorage had better be secured under it, as there is none to be recommended between it and Cape Flinders (59).

Upon rounding Cape Melville, the Islands of Flinders' Group (58) will be seen, and as soon as you have passed between the stony reef that projects off the Cape, (the extremity of which bears from it by compass N. W. by N. and from Pipon Island S. W. by W. $\frac{1}{2}$ W. nearly) and the reef that surrounds Pipon Island (57), direct the course for the extremity of the islands to the westward, which is Cape Flinders, the course and distance to it is W. $\frac{1}{2}$ S., nearly thirteen miles, leaving a low woody island on the starboard hand.

His Majesty's Sloop *Satellite* in 1822, grounded upon a small reef, *a*, bearing N. by E. (easterly) from the extremity of the Cape, distant about two miles, but, as a ship may pass within a stone's throw of the Cape, this danger may be easily avoided. The best anchorage to leeward of Cape Flinders is under the flat topped hill, at a third of a mile from the shore, in ten fathoms, muddy bottom. In hauling round the Cape avoid a shoal which extends for two cables' length from the shore on its west side.

If day light will allow of time to run fifteen miles further, the ship may proceed to the anchorage under reef *d*, but in this neighbourhood anchorage may be obtained under any of the reefs or islets between this part and Cape Grenville, for the bottom is universally of mud, and, by anchoring with the body of a reef bearing S. E., the vessel is sufficiently sheltered from the sea, which is generally smooth.

On leaving Cape Flinders, steer W. $\frac{1}{2}$ N. for about 23 miles, leaving the reefs *c* and *g* to seaward, and *d*, *e*, and *f* to the southward of the course, then haul up about N. W. $\frac{1}{2}$ N. and steer within the reef *i* and Pelican Island (63) and to seaward of the Claremont Islands (61) 1 and 2, which are low and woody.

When abreast of island 2, the south-west end of the reef *m* will be seen, which should be passed at from one to two miles, and the course N. by W. $\frac{1}{2}$ W. will carry you to islands 4 and 5, which you may pass on either side of, the channel between them is also quite safe. If you take the latter course, steer north, within the reef *o*, and then close within 6, to avoid a low rock that covers with the tide. Having passed this rock, which is marked on the Chart, steer for 7, and pass within one mile of it, to avoid the shoals that extend off Cape Sidmouth (66). Hence the course is N. N. W. towards Night Island (67), and, when abreast of it, steer N. $\frac{1}{2}$ W. until near the covered shoal *r*, when the course may be directed within Sherrard's Islets (68) and reef 10 (on which there is a sandy islet covered with some bushes) and then steer round Cape Direction.

Hence a course N. N. W. $\frac{1}{2}$ W. will carry you within the reefs *y*, *z*, *a*, *b*, and *c*; and without the rocky islet that lies off Restoration Island (70); continuing this course for about five miles beyond Cape Restoration, you will see the long reef *e*, then steer N. W. along its edge, which extends until you are abreast of Fair Cape (71), where it terminates with a very narrow point. Thence steer N. W. $\frac{1}{2}$ N. and pass between the two easternmost Piper's Islands (74) and the reefs *h*, *i*, and *k*; then on either side of 1 and *m*, inshore of Haggerston Island (76), and round the outermost of Sir Everard Home Group (77).

The anchorages between Cape Flinders and this are so numerous as not to require particular mention: the north-west end of every reef will afford shelter; but the anchor should not be dropped too near to them, because the tide sweeps round the edge with greater strength than it does at half a mile off, and the bottom is generally deeper. If the day be advanced and the breeze fresh, Night Island should not be passed; because the anchorages between it and Piper Islands are rather exposed, and a vessel getting under weigh from Night Island at day-light will easily reach Piper Islands, or Margaret Bay, before dark.

Margaret Bay (77) is round Cape Grenville; the anchorage being fronted by Sunday Island, is well sheltered, it is a safe place to stop at anchor in six fathoms, with the island bearing S. E.

In passing round Sir Everard Home Islands (77), steer wide from them, to avoid the tide drifting you towards the group, for it sets to the N. W. across the course. The course is then about N. W. $\frac{1}{2}$ W. to the Bird Isles (80), and thence to the reef *v*, about N. W. by N.; the better and more direct plan is to pass between *v* and *w*, (there is however, a safe channel between them,) and when abreast of the west end of the latter, the course and distance to Cairncross Island (82) is N. by W. $\frac{1}{2}$ W. about eighteen miles.

There not being any very good anchorage between Cairncross Island and Cape York, it would be perhaps better to anchor under it for the night, in about fourteen or fifteen fathoms mud, the island bearing S. E. but not nearer than half a mile, because within that distance the bottom is rocky.

Leaving Cairncross Island, steer N. N. W. $\frac{1}{2}$ W. until Escape River (84) is abreast of you, when look out for reef *x* steer within it about N. W. by N. which will take you inside the covered reefs. Your course then must be round the Albany Islands (87), and hence N. W. by N. for *a*, which is rocky islet, that may be seen from abreast the Albany Islets.

The passage through the Possession Isles (90) and Endeavour Strait (91) is not to be recommended for a large ship, on account of the shoal water that extends from Wallis Isles towards Shoal Cape, the route round the north end of Wednesday (92), and Hammond Islands is preferable. Upon passing reef *a*, Wednesday Island will be seen, in steering towards it, avoid standing too close to the rocky islet that is abreast of the strait between it and Horned Hill, as some sunken rocks stretch off it for about a quarter of a mile, steer round the north point of Wednesday Island at half a mile then W. by S. $\frac{1}{2}$ S. which will carry you to the northward of the rock off Hammond Island. From this rock steer S. W. by W.; and when abreast of the South west end of Hammond Island, haul towards a reef to the southward of the course, on which you will see some dry rocks, which you may pass within half a mile of, by so doing you will avoid reef *d*, which is generally, it not always covered, the fair way of this channel is seven and eight fathoms deep.

When the summit of Good Island (93) bears S. W. by W. steer W. by S. southerly for Booby Island (95), by which you will avoid Larper Bank, and when you are passed it you are clear of the strait. Hence you may steer W. $\frac{1}{2}$ S. through the night, on which course you will very gradually deepen your water. To the northward of the two tracks to the westward of Booby Island are some coral reefs, the position of which are not correctly ascertained.

Being fully convinced of the great advantage and superiority which the inner route possesses over the passage without the barrier reefs, which for many years has been generally adopted, I am anxious to prevail upon navigators bound through Torres Strait to give it a trial, the result of which I feel assured will be in favor of its being ever afterwards used.

The season in which the strait only can be passed commences with the month of April, and ends with October, that is, during the South-east monsoon. The westerly monsoon besides being a foul wind, is accompanied by unsettled gloomy weather and heavy rains, and frequently by strong gales against which it is impossible to make a voyage without great delay and loss of time.

The passage up the north east coast is not affected by the monsoons. The south east trade blows up the coast during the whole year, with little variation, save that during the months of June, July, and August, it is occasionally, although rarely, suspended by North easterly winds, with thick rainy weather. To the southward of Cape Grafton (latitude 16° 51') this interruption is of more frequent occurrence. Still, however, the prevailing wind to the northward of Break Sea Spit is from south east, and there will be no difficulty in making an expeditious passage.

The coast from Break Sea Spit to the Northumberland Islands is delineated in Captain Flinders's Atlas, (East Coast Sheet 3,) and in this space I have merely described such places as are prominent features, and have not been noticed by him.

COMPASS BEARINGS

Angier Roads, April 28th, 1832.

We sailed from Linton Roads on the 30th March, intending to go round the northern end of Luconia, touching at the New Hebrides, and other islands, on our way down to the Feejees, but on getting clear of the land, found the wind directly in our teeth, blowing so hard as to keep us most of the time under double reef, with a large sea and strong current setting S. W. After trying it two days, and finding we should not even fetch the Straits of St. Bernardino, at the southern end of Luconia, we concluded to keep off, and running down the China Sea, out of the Straits of

Sunda, cross the south east trades, and go round the southern end of New Holland—perhaps to touch at New Zealand, if the wind was favourable.

On the 2d of April, being in lat. 18° 50' N Long by Chron 116° 11' at 10 A.M. up helm and steered S. by W. with strong breezes, which moderated as we made southward. Till we made the island of Pulo Sapitao on the 10th, from that time till the 17th, we had light winds and calms, with a strong southerly current. On that day we very narrowly escaped a total loss both of the vessel and crew. I give you below an extract from my journal. On the noon of the 16th, latitude observed 3° S., longitude by Chronometer 106° 13' E.

Tuesday April 17, commences calm, with pleasant weather. The first seven hours she drifted about seven miles in all. Long by mean of two sets of sights by Chronometer, taken within 20 min. of each other, between 2 h and 3 h P.M. was 106° 19' E. At 4 P.M. lowered down the boats, and tried the current found it running at the rate of one knot and a half in the direction of S. E. by S. sound ed 20 fathoms. At 7 P.M. a light breeze sprang up from E. N. E. The ship, going along two knots and a half S. by W. At 8 A.M. the breeze freshened, steered S. S. W., going about four knots and a half. At 8 A.M. steered S. E. going about four knots long in by Chron at 8 h 30 m 48 s apparent time A.M. 106° 17' east, which is 12 to the eastward of the run from yesterday's sight. At 11 h 15 m A.M. the ship, on a lull, four knots, S. E. E., wind light from E. N. E. and sea perfectly smooth. A man who was at work on the foremast suddenly swung out backwards under the bows. Captain I and myself were below at the time. The helm was instantly put hard apart and sails thrown aback. She went ahead about once in a half her length and struck lifting her bows a few inches out of the water and heeling about three streaks to port, then coming to. Hove the lead and had in several places on each side 2½ to 3 fathoms. On a rock under the fore chains had 10½ feet. Run out the kedge into 3 fathoms and sent the boat ahead to sound, took in all sail, and, after hauling on the hawser a few minutes, and running up the jibs, she backed stern a little, righted, and came off. The current then giving her a sheer to port, she shot ahead about half her length, perhaps a little more, and took on another rock under the forechannels on the starboard side, the hawser tending nearly ahead, clapped it to the windlass, and hove as taught as it would bear, set all sails and commenced heaving over ballast. The least water round her now was from 2 to 3 fathoms, with the exception of the rock on which she lay, where we had 10 feet. The latitude observed at this time was by a meridian alt of the sun, 1° 01' which we think is about correct as our altitudes agreed within a mile. Captain I's taken with a quadrant and mine with a sextant, though it may be out of the way S. either to the northward or to the southward as the sun was partially obscured by light watery clouds, which made it difficult to define his edge.

Wednesday, April 18th. At 30 min P.M. having heaved over about 20 tons of ballast she started immediately, cut the hawser, and after running S. E. a cable's length over a bed of rocks which seemed to nearly touch our keel, came into 17 fathoms clear of the shoal. Run a few cables length further, and hove to. Sent two trusty divers (Manilla men) down, who passed under her bottom from stem to stern several times they reported only a part of a sheet of copper off on each side, under the fore channels, near the bulge. She then rubbed a little, but not appearing broken, tried the pumps, and found she made no water. Manned the whale boat, and Captain I and myself went back on the shoal—coming on the south-west side, a boat's length from the edge of it, had 17 fathoms, on the edge had 7½ fathoms. We then pulled towards the centre, sounding about every thirty yards had 6½, 3½, 3 and 2 fathoms—then 6 feet, and 3 feet in about the centre of the shoal sharp coral rocks. Hove up the kedge, and pulled for the ship, she bearing S. by E. sounding as we went, 2½ and 1½ fathoms near the edge. On the edge 10 fathoms a boat's length from the shoal, 12 and 15 fathoms. At 2 P.M. got on board the ship, and filled away S. by E. Long in by Chron by mean of three good sights, at 2 h 01 m 36 s apparent time P.M. 106° 13' east, which is 1° eastward of the run from sight A.M. of the 17th, the shoal at this time bearing N. by W., distant one mile from the ship. This shoal is not laid down on Horsburgh's Charts, nor could we find any mention made of it in his Directory. While the ship lay on the shoal, I went myself to the main top gallant-mast-head and could not see any land in any direction, the horizon at the time being clear. The shoal appeared to be nearly in a circular form, and from three to four cables' length across it in its greatest extent consisting of coral rocks—no part of it visible above water, the ship laying in about the centre. After the boats had carried out the kedge, she went round the ship, and to the edge of the shoal, in several directions, to the southward and eastward, and southward and westward; the average of her soundings were from two to five fathoms on the edge, ten fathoms a short distance from the ship, on the larboard beam. She then laying with her head S. S. W. had 3 feet on the top of a peaked rock. When on the shoal, in the boat, tried the current, and found it setting S. E. by S. 1½ knot.

It was a most providential circumstance, that at this time the sea was as smooth as a millpond, having had light airs and calms for four days previous. While the ship lay on the rocks, she lay perfectly still, and when she went off, her motion was so easy that we could only perceive it by looking over the side.

Our Chronometer was rated at Manila by sights taken with a Horizon Glass, and was slow of Greenwich mean time 31 min on the 13th February last, her daily rate losing 3". By same sights, after leaving Linton April 2, she appeared to be about 5 to 6 to the eastward of the true long. By the Island of Great Lami, upon which we gave her a new rate of three seconds and five tenths from Feb 13th. When we made Casper Island, she was about five or six miles out of the way to the eastward.

No. 186 of 1834.—The following General Orders by the Right Honorable the Governor General of India in Council, dated the 5th ultimo, is published for the information of the Army:

GENERAL ORDERS BY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

Ootacamund, 5th September, 1834.

The Right Honorable the Governor General of India in Council is pleased to publish the following Extract from the Pay Regulations of the Bengal Government, issued to the Army of that Presidency under date the 1st of February 1828, and to declare its provisions alike applicable to the Presidencies of Madras and Bombay.

"COMMAND OF REGIMENTS."

"Commanding Officers present with their Corps, but incapable from sickness of conducting the duties of Command, will, in the event of such sickness being prolonged beyond the period of one month, be directed by the Brigadier or Senior Officer in the District, to deliver over charge of the Regiment to the next Senior Officer present."

His Lordship in Council considers an Officer to be incapable of conducting the duties of Command, in the sense implied in the above extract, when, from sickness he is unable to attend, for the period specified, the Parade of his Regiment, and when the responsibility annexed to a due supervision of the established course of exercise and discipline must necessarily devolve upon another:—in any such case, the Command Allowance will be drawn by the Officer to whose charge the Regiment may be delivered over, but who is not competent while in such temporary charge, to make any change in the Standing Orders of the Corps, or in the manner in which its duties are conducted.

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers" &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered a such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sicca Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."

SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, OCTOBER 8, 1834.

FORT WILLIAM, SEPARATE DEPARTMENT, THE 22D SEPTEMBER, 1834.

The Vice President in Council is pleased to order the following Extract from the 30th paragraph of a Dispatch from the Hon'ble the Court of Directors in the Separate Department, dated the 9th April, 1834, to be published for the information of Public Officers in charge of Stamps:

"We desire that all Officers in charge of Stamps may be informed that the liability imposed upon them by Clause 2d, Section VIII. of Regulation X. of 1829, will in future be strictly enforced in all cases in which the deficiency cannot clearly be shown to have arisen from causes beyond their control."

H. T. PRINSEP, *Secy. to the Govt.*

GENERAL POST OFFICE NOTIFICATION.

NUMEROUS instances having occurred in which the indulgence granted to the Senders of "Law Papers," "Accounts and Vouchers" and "Pamphlets" and "Printed Papers" at a rate of Postage equal to only One-third of Letter Postage, has been grossly abused, the Honorable the Vice President in Council has directed that henceforth the following Rules and Penalties shall be put in force in the place of the Rules now existing under these heads, and notice is accordingly given that they will be strictly enforced from the 1st proximo:

In order that all persons marking their papers with the words "Law Papers," "Accounts," "Vouchers," "Pamphlets," &c. with the view of passing them through the Post Office at the rates of Postage provided for such despatches, may be fully aware of the extent of their liabilities under these Rules,—Notice is hereby given, that any Letter, Note or Writing whatever, except the "Law Papers," "Accounts and Vouchers," &c. themselves, being enclosed in a cover so marked, will bring the Sender or Receiver, as the case may be, under the influence of these Rules, and in like manner any manuscript whatever or any other thing which may be enclosed in a Packet marked Pamphlet, Printed Papers, Newspapers, &c. or in any Packet delivered as such and at the Postage rates prescribed for such despatches, whether marked or not, will render the Sender or Receiver, as the case may be, liable to the Penalties.

Rule. "Law Papers, Accounts and Vouchers, superscribed and attested by the full signature of the Party sending them as being such, are received, for transmission by Dak, at the rate of Three Sicca Weight as one, i. e. any weight not exceeding Three Sicca Weight, at Single Letter Postage. For any weight above Three Sicca Weight, One-third of the Postage to be charged that would be leviable on a Letter of the same weight."

"Law Papers, Accounts, and Vouchers can only be transmitted by Dak when not exceeding Twenty-one Sicca Weight."

"Should covers said to contain the above mentioned description of Documents, be found to contain Letters, they will be charged with ten times Full Letter Postage agreeably to the weight of the Packet, and the Packet will be retained by the Deputy Post Master until the Postage be paid; moreover all Letters arriving at the Post Office for the Sender will be liable to be detained until the Postage under the Penalty, be liquidated."

"In cases where suspicion attaches to such covers, but where it cannot be satisfactorily ascertained that they actually do contain Letters, the Deputy Post Master at the despatching Office will note his suspicions on the outside of the envelope for the information of the Deputy Post Master at the Station for which the Packet is destined, who is empowered in such case to call upon the receiving party to attend either in person or by proxy, to open them in his presence, when, in the event of Letters being found within the cover, he will detain the Packet and its contents until the difference between the amount which may have been paid at the time of despatch, as for Law Papers, &c. only, and that to which under the Penalty, they would then be liable to, is adjusted. This applies equally should the suspicion originate with the Deputy Post Master at the Post Office of the Station where the Letter is to be delivered."

"Any thing in manuscript beyond the address on the cover of a Newspaper or other Printed Paper, will subject the parties concerned to the same Penalty and Conditions as those provided in the case of covers superscribed as containing Law Papers."

"Printed or Lithographed Circular Letters are liable to Full Letter Postage."
